D.O No. – 12017/ Sarthi -08/AIM – 2024

Date: 09.08.2024

Dear Sir/Madam,

Atal Innovation Mission (AIM) has established 10,000 Atal Tinkering Labs (ATL) in 722 districts to date across the length and breadth of the country. While AIM is continuously monitoring the progress of ATLs with online dashboards and on-site visits since its first establishment, it is also suggested to develop self-managed, sustainable, and scalable clustering frameworks to enhance the performance of ATLs. With this objective in mind, AIM has launched 'ATL Sarthi' initiative, a cluster-based management of ATLs, in a cluster of 20-30 schools guided by a committee of high performing school principals, teachers, mentors and a nodal local institution to drive the same.

**AIM proposes your institution 'Vadodara Innovation Council (VIC) to be the nodal organization to drive ATL Sarthi in Vadodara region.** The list of ATLs in this district along with their performance bands has been appended at Annexure 1. You may implement ATL Sarthi clusters basis your understanding of local geography and other nuances specific to your region.

**Please get back to us with the final list of clusters and an implementation plan for the same.**

We look forward to collaborating with you on ATL Sarthi.

Yours Sincerely,

*Chintan Vaishnav*

(Dr. Chintan Vaishnav)
